Foot & Ankle Surgery. Our team of orthopaedic foot and ankle consultants specialise in the diagnosis, care, and treatment of patients with disorders of the musculoskeletal system of the foot and ankle. This includes the bones, joints, ligaments, muscles tendons, nerves and skin. Their goal is to restore function and facilitate a quick return to daily activities, work and sports.

Foot & Ankle Surgery

Foot and Ankle Surgery. Foot and ankle surgeons offer comprehensive surgical care for a wide variety of problems, including arthritis in the foot and ankle, sports injuries, especially in the ankle, fractures in the foot and ankle, foot problems in people with diabetes, birth deformities and other foot problems in children, heel pain, high-arched and flat feet, bunions and problems with the small toes.

Foot and Ankle Surgery - Royal Orthopaedic Hospital

BOFAS is also launching a series of webinars for specialist orthopaedic surgery trainees. Dates and registration details are available for the first eight topics. Over 25 webinars are planned and these will cover the entire foot and ankle section of the FRCS (Tr&Orth) curriculum** The Society's purposes include:
